

The Board of Directors' proposal for authorisation of the Board to resolve on new share issues

The Board proposes that the Annual General Meeting (AGM) authorises the Board to resolve, during the period until the next AGM, on one or more occasions, on the issue of not more than 1,164,142 new shares. In this context, the Board shall be entitled to resolve on deviation from the shareholders' preferential right, and that payment shall be made in cash, by set-off or in kind. At deviation from the shareholders' preferential right, the issue price shall be determined in accordance with market practise.

The purpose of the authorization is to provide the Board with increased latitude in its efforts to optimise the company's capital structure and to enable the company to finance, in whole or in part, company acquisitions with the company's own shares.

If the authorisation is exercised in full, it will entail approximately 9% dilution of the share capital and voting rights.

The Board of Directors, or anyone appointed by the Board of Directors, shall be authorised to make such minor adjustments of the resolution of the general meeting that may be necessary in connection with registration with the Swedish Companies Registration Office.

In order to be valid, a resolution in accordance with the Board's proposal must be supported by shareholders representing at least two thirds of both the votes cast and the shares represented at the AGM.
