The Board's proposal for guidelines for remuneration to senior executives (item 16)

Probi shall offer a market-based total remuneration package that enables the recruitment and retention of senior executives. The remuneration paid to company management shall comprise a fixed salary, variable cash salary, the possibility to participate in long-term share or share-price related incentive

plans, pension and other remuneration. Collectively, these components make up the individual's total remuneration package.

The fixed salary shall take into account the individual's areas of responsibility and experience. The variable cash salary portion shall be based on the individual's fulfilment of quantitative and qualitative goals and shall amount to a maximum of 60% of the fixed salary for the CEO and a maximum of 50% of the fixed salary for other senior executives. Variable remuneration shall be linked to pre-determined performance criteria and shall ensure a long-term commitment to the development of the company. Remuneration and benefits shall be market-based and shall help promote the executive's ability to carry out his or her duties. In case of termination by the employee, the notice period normally amounts to three to six months. In case of termination by the company, compensation during notice period and under severance agreements shall not exceed an amount corresponding to fixed salary during twelve months.

The above guidelines do not comprise such share related incentive programs that may be adopted by the general meeting.

The Board of Directors shall be entitled to deviate from the guidelines if, in the opinion of the Board and on a case-by-case basis, there are specific reasons for doing so.

The Board of Directors' proposal for authorisation of the Board to resolve on repurchase and transfer of the company's own shares (item 17)

The Board proposes that the AGM authorises the Board to resolve, during the period until the next AGM, on one or more occasions, on the repurchase of the company's shares as follows.

1. The repurchase shall maximum comprise so many shares that the company after each repurchase holds a maximum of 10 per cent of the total number of shares in the company.
2. The repurchase of shares shall take place on Nasdaq Stockholm, at a price within the share price interval registered at that time, where share price interval means the difference between the highest buying price and the lowest selling price.
3. Payment of the shares shall be made in cash.

The Board further proposes that the AGM authorises the Board to resolve, during the period until the next AGM, on one or more occasions, on the transfer of the company's own shares as follows.

1. The Board of Directors is entitled to resolve on the transfer of the company's own shares on Nasdaq Stockholm at a price within the share price interval registered at that time, where share price interval means the difference between the highest buying price and the lowest selling price. The transfers may not exceed the number of shares held by the company at the time of transfer.
2. The Board of Directors is further entitled to resolve, with or without preferential right for the company's shareholder, on the transfer of the company's own shares in other manners than as set forth in item 1 above. The transfer may in such case be made for payment in cash, payment in kind or through the offsetting of debt. The Board's resolution regarding transfers is to be executed within the time determined by the Board. The transfers may not exceed the number of shares held by the company at the time of transfer.

The purpose of the proposed authorisations is to provide the Board with increased latitude in its efforts to optimise the company's capital structure, and to enable the company to finance, in whole or in part, company acquisitions with the company's own shares.

In order to be valid, a resolution in accordance with the Board's proposal under item 17 must be supported by shareholders representing at least two thirds of both the votes cast and the shares represented at the AGM.

The Board of Directors' proposal for authorisation of the Board to resolve on new share issues (item 18)

The Board proposes that the AGM authorises the Board to resolve, during the period until the next AGM, on one or more occasions, on the issue of not more than 1,164,412 new shares. In this context, the Board shall be entitled to resolve on deviation from the shareholders' preferential right, and that payment shall be made in cash, by set-off or in kind. At deviation from the shareholders' preferential right, the issue price shall be determined in accordance with market practise.

The purpose of the authorization is to provide the Board with increased latitude in its efforts to optimise the company's capital structure, to enable the company to finance, in whole or in part, company acquisitions with the company's own shares, and to facilitate efforts to broaden and strengthen the company's ownership structure over the long term.

If the authorisation is exercised in full, it will entail approximately 9% dilution of the share capital and voting rights.

In order to be valid, a resolution in accordance with the Board's proposal under item 18 must be supported by shareholders representing at least two thirds of both the votes cast and the shares represented at the AGM.

Appointment of Nomination Committee (item 19)

The shareholders Symrise, the Fourth Swedish National Pension Fund, Swedbank Robur funds and Bengt Jeppsson have proposed that the AGM appoints a Nomination Committee, comprising four members, to perform the duties pursuant to the Swedish Code of Corporate Governance. Heinz-Jürgen Bertram (representing Symrise), Marianne Flink (representing Swedbank Robur funds), Jannis Kitsakis (representing the Fourth Swedish National Pension Fund) and Bengt Jeppsson (representing minor shareholders) are proposed as members of the Nomination Committee. If any of the shareholders who have appointed a member of the Nomination Committee divests a significant portion of its shares in the company before the Nomination Committee has completed its assignment, the member that the shareholder has appointed, should the Nomination Committee so decide, must step down and, should the Nomination Committee see fit, this member will be replaced by a new member appointed by the shareholder who at that point in time is the registered shareholder with the largest number of voting rights who is not already represented on the Nomination Committee. If, before the Nomination Committee has completed its assignment, any of the members of the Nomination Committee ceases to represent the shareholder who has appointed such a member, that member, should the Nomination Committee so decide, is to be replaced by a new member appointed by that shareholder. If the registered ownership conditions should change significantly in other respects before the Nomination Committee has completed its assignment and the Nomination Committee so decides, the composition of the Nomination Committee is to be changed in accordance with principles described above, or the Nomination Committee is to complete its work without appointing a new member.

Provision of documents

The Annual Report, Auditor's Report, the auditors statement in accordance with Chapter 8, Section 54 of the Swedish Companies Act and other applicable documentation will be available at the company and on its website, www.probi.com, no later than three weeks prior to the AGM and will be sent to those shareholders who so request and who state their postal address.

Shareholders' right to request information

The shareholders are reminded of their right to request information from the Board of Directors and the CEO at the AGM in respect of circumstances which may affect the assessment of a matter on the agenda or circumstances which may affect the company's financial position.

The total number of shares in Probi AB amounts to 11,644,125, corresponding to an equal number of votes. Of these shares, 250,000 are held in treasury, which may not be represented at the AGM.
