

Probiotics tailored to your needs

Probi LiveBac®

Probi LiveBac is a comprehensive range of live and active probiotic strains for use in dietary supplements. Our strains are available in a variety of applications, including concentrates, blends, and finished formats, making it easy to develop customized products to suit your specific business needs.

At Probi, we are passionate about researching and manufacturing new and effective probiotics to help our customers formulate products that stand out.

A SELECTION OF PROBI LIVEBAC SPECIES:

Bifidobacterium infantis
Bifidobacterium lactis
Bifidobacterium longum
Lacticaseibacillus casei
Lacticaseibacillus paracasei
Lacticaseibacillus rhamnosus
Latilactobacillus sakei
Lactiplantibacillus plantarum
Lactococcus lactis subsp. *lactis*
Limosilactobacillus fermentum
Limosilactobacillus reuteri

*Due to the recent taxonomic reclassification of the *Lactobacillus* genus, some naming has changed.

Expertise at every step

When you choose Probi, you choose a dedicated team of business development professionals who have years of experience helping customers select strains for unique products that help them achieve specific business targets.

Probi offers unrivalled manufacturing experience and expertise. With rigorous analysis and testing at every stage of production, we optimize our manufacturing processes to guarantee our probiotics remain alive and stable throughout their shelf life.

All LiveBac strains have an extensive history of commercial use in probiotic dietary supplement products. Most strains and products are available allergen-free, kosher and halal; all are non-GMO and non-animal derived.

All strains have been genetically identified and validated with assigned strain deposit numbers.

CUSTOMIZED FORMULATIONS

A wide selection of strains that can be combined and customized to achieve your CFU and shelf-life goals.

- Single or multi-species blends
- Potent strains with good stability and functionality
- Large selection of compatible functional actives
- Various excipient options

FINISHED PRODUCT

- Variety of application formats: powders, capsules, tablets, chewables and spheres
- Finished format products are available either in bulk or bottled with your label

PACKAGING

- Finished product in plastic bottles, multiple sizes available
- Bulk powder: polyethylene-lined aluminum or mylar bags, 1–25 kg

DELIVERY TECHNOLOGY

- BIO-tract® is a unique, patented delivery system available for the protection of sensitive probiotic strains and for a controlled intestinal release

Because local laws and regulations related to the distribution, marketing and sale of ingredients and finished products vary, Probi disclaims any regulatory compliance, warranties, product guidance or instruction of any kind. This paper is provided for business-to-business communication and educational purposes only without warranties of any kind. Users should seek legal and/or regulatory advice prior to the market introduction of any Probi strain and before use of any claims to ensure compliance and thereafter on an ongoing basis when required.
