

# Patented, proven protection

## Probi BIO-tract®

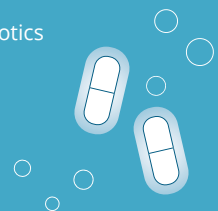

The patented extended-release technology of Probi BIO-tract offers protection from harsh stomach conditions, shielding live microorganisms and other beneficial compounds from gastric acid and enabling optimized, timed-release delivery along the digestive tract.

### NUTRIENTS COMPATIBLE WITH BIO-tract DELIVERY

- Amino Acids
- B vitamins
- Melatonin
- Glucosamine/  
Chondroitin/MSM
- Beta-alanine
- ZMA
- Niacin
- Vitamin C
- Electrolytes

### BIO-tract ADVANTAGES\*

- Unique, patented delivery system
- Consistent, timed release of probiotics and other nutrients
- Ideal for ingredients that may be denatured by stomach acids or cause stomach upset
- Formulation and format flexibility

\* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

## BIO-tract® – The Technology

BIO-tract is a unique, patented delivery system capable of protecting sensitive probiotic strains and dietary ingredients from stomach acid, which enables prolonged absorption for maximum nutrient benefits. This innovative technology is comprised of a matrix that forms an outer gel as the tablet/capsule travels through the gastrointestinal tract, allowing for the diffusion of active substances as the matrix hydrates and erodes. BIO-tract improves the stability and protection of active ingredients and probiotics, so they can be delivered along the gastrointestinal tract.

### FACTS IN BRIEF

- Customized Formulations
  - Probiotics: Single or multi-strain blends
  - Selected excipients and other ingredients including prebiotics
- Finished Product – bulk or fully bottled
  - Tablets – oblong, oval or round
  - Spheres – 6, 8, and 10 mm
  - Capsules
- All BIO-tract products are produced in Probi®'s NSF and NSF Certified for Sport® manufacturing facility
- BIO-tract components are non-GMO, Kosher, Halal, and GRAS
